EDUCATION

The University of British Columbia

BC, Canada

Bachelor of Arts in Computer Science, minor in Management | GPA: 3.8

June 2025

- **Awards:** Deputy Vice Chancellor Scholarship, NUS UBC Exchange Award, 1st place in RBCxMSA Case Competition, 3rd place in MNPxMSA Case Competition

EXPERIENCE

Department of Computer Science, The University of British Columbia

Kelowna, Canada

Undergraduate UX Researcher

May 2024 – September 2024

- Performed system usability analysis and data-driven testing to identify navigation and performance inefficiencies in UBCO's Faculty of Science website
- Designed and implemented interactive prototypes in Figma and Adobe Photoshop, improving search efficiency by 10% and overall user satisfaction by 80%
- Prepared documentation and software evaluation reports using Microsoft Office Suite to guide web redesign and deployment decisions

Perceptify

Remote

Backend Engineer Intern

May 2023 – August 2023

- Developed and maintained scalable backend systems using Python, SQL, and Supabase, processing over 10,000+ social media posts daily for real-time analytics
- Refactored monolithic code into modular microservices architecture, improving query response times by 30% and supporting frontend integrations
- Optimized data pipelines for transformation and model training, increasing algorithmic accuracy by 70% and system reliability across distributed environments

AiTudier

Remote

IT Project Manager; Curriculum Developer

June 2022 – September 2022

- Led full-cycle software and curriculum development under Agile and Waterfall frameworks for a 42-unit Electrical Engineering program.
- Directed 15+ international interns through version control, sprint planning, and iterative design, ensuring deliverables met technical and accessibility standards.
- Expanded team by 75% through strategic recruitment and cross-functional training, accelerating production timelines while maintaining code and content quality.

The Phoenix News

Kelowna, Canada

Social Media Coordinator

September 2022 – January 2024

- Revitalized social media presence by launching TikTok, YouTube, and a new Instagram after Bill C-18 restrictions, expanding reach to 15,000+ viewers (+375%) and growing followers by 210%
- Produced viral reels and newsletters that boosted campus visibility, increasing print readership by 500+ copies and strengthening The Phoenix's brand recognition among UBCO students

PROJECTS

Capstone Project (Image Aesthetics)

- Led a team of 5 to develop a full-stack web application using React, Python, and SQLite to analyze image aesthetics using machine learning models
- Built a data pipeline for survey input, database management, and dashboard visualization to predict user preferences

Teamable Analytics Tool

- Highlighted unidentified usability and navigation issues on Teamable Analytics by conducting hierarchical task analysis, usability testing, and prototypes
- Deployed full-stack features using Next.js and Django to enhance user experience, enabling dynamic group rearrangement, improved whitespace, and flexible layout adjustments for a more approachable interface

The Socioeconomic Bias of Not-So-Standardized Testing

- Analyzed 10,000+ standardized test records using NumPy, Pandas, and Seaborn to uncover disparities by gender, ethnicity, and education level
- Generated visual dashboards in Tableau including violin plots, heatmaps, and grid maps to clearly communicate findings to non-technical audiences

Skills: Java, Python, React, HTML/CSS, Figma, Git, Microsoft Office Suite (Excel, Word, PowerPoint, Access), Tableau
